About Us...

KARNAVATI STONE EXPORT is a certified Indian natural stone company that manufactures, supplies, and exports high-quality Indian natural stones, including granite, marble, slate, sandstone, limestone, and quartzite. We deliver stones from North as well as South India. We, at **KARNAVATI STONE Exports**, source different stones directly from quarries and process them at our very own stone processing factory at Bundi, Rajasthan, India. The processed natural stones are available in finishes like natural, honed, polished, calibrated, brushed, sandblasted, and tumbled in hand-cut or machine-cut edges. Our factories proximity to quarries (only 30 kilometers from the Autumn Brown, Kandla Grey & Mandana sandstone mines) ensures that we get the best of quality material without spending much on transportation; thus enabling us to offer high-grade stone products at competitive rates.
